

# PRIMARY CARE

Inclusive virtual wellness  
and preventive health care

LEARN MORE

Expert and affirming virtual health care is now available to all eligible employees!

FOLX Health offers a comprehensive range of services, including primary care, mental health care, gender-affirming care, sexual and reproductive health services, and fertility consultations, all from the convenience of your home.

With a diverse network of LGBTQIA+ expert clinicians, FOLX Health is the leader in inclusive care for employees and dependents ages 18+.

FOLX also provides a national referral network and navigation support for any in-person care needs, as well as a community platform that gives you access to health education, community resources, peer chat and support groups, live events, and more.

Our clinicians are available within **2-5 days** for telehealth appointments

Our care team is accessible **7 days a week** via messaging
